

# Windows Driver

The KIP Windows® driver is Microsoft WHQL certified, meaning the KIP Windows driver meets explicit standards of reliability and quality. The KIP Windows driver enables direct printing from Windows based applications and supports advanced features including set collation, fast spooling for multiple copies or sets, data tracking for job accounting and media selection.

- Windows device experience
- Provides current media information
- Displays real time system status
- 64 & 32 bit operating system compatibility
- Job accounting and data tracking information
